SAM Learning

SAM learning is a Virtual Learning Environment [VLE] covering all subjects at GCSE and some even higher. Students can work at their own pace and choose the topics they wish to cover and whether they want to revise or be tested. All work can be marked online and a record kept of progress made.

User ID: six digit DoB plus initials e.g. 190403rb [19th April 2003 richard briggs]

Password: the same as user ID unless changed by the student

PiXL – Performance in Excellence

PiXL is a large network of school which enables the sharing of 'good practice'. As a member BHS has access to resources and approaches that are working in other schools. We are also able to provide students access to the PiXL Independence resources which have been developed in order to support students to prepare for their exams outside school.

PiXL Maths App / PiXL Lit App / PiXL Geography App

We have purchased a licence so that all our students can use these Apps wherever they are on their mobile devices. In Maths all question level data has been uploaded for Year 11, so that students are provided with individually tailored questions to boost their examination performance.

Students have been given personalised logins

Elevate Education – 'Ace your exams'

All students were given the opportunity to attend a workshop focussing on what to do in preparation for the summer examinations. As part of our subscription to 'Elevate' all students have access to the Elevate website where further help and guidance can be found.

MathsWatch VLE

This site provides students access to short video tutorials on every aspect of the Maths GCSE. Students can use the materials and the downloadable practice questions to address the specific topics they are least confident with.

<https://vle.mathswatch.co.uk/vle/>

All students have been given there own personal login. If a reminder is needed please contact your Maths teacher.
